28th Mar

<https://leeds-people-songs-2.eventbrite.co.uk>

Come and join members of Leeds People's Choir in a collective exploration of inspirational people from Leeds past and have a go at creative song writing. This unique project is designed to develop new songs from old stories about the uncelebrated and unsung.

What you can expect:

- A warm and friendly welcome
- Suitable for those with no experience to those with plenty
- All welcome from choir members to soloists and novices
- Working with a professional musician Fran Woodcock
- Plenty of researched material to work from
- Ideas and experiences to take away with you .

£12.50 per workshop or £20.00 for both
a different song for each workshop*

** Each of the workshops is a 'stand alone' event but the resultant material from the two workshops will be considered by Leeds People's Choir to go forward to be developed into a performance piece by our brilliant Musical Director Fran Wyburn. This and other songs are then going to be performed at various venues around Leeds over the coming year.*
